

# Monday 30<sup>th</sup> September

## Breast-conserving surgery

### 9-00 Breast conservation v Mastectomy and Reconstruction

- *Should we still offer the choice?*
- *Survival and local control*
- *Short term / long term functional and aesthetic outcome and cost*

### 09-45 Pushing the indications for BCS in invasive disease

- *Neo-adjuvant therapy*
- *Tailoring surgery to response*

10-30 *Coffee*

### 11-00 **Gadget show**

### 11-20 Oncoplastic surgery for DCIS

- *Modern thoughts on the management of DCIS*
- *Results from case series - Milan / Nottingham*
- *Planning and performing the 'wide' local excision*

### 12-00 Volume Displacement Oncoplastic Surgery Algorithms

- *My approach - Atlanta / Nottingham / Paris*
- *The TEAM study*

13-00 *Lunch*

### 14-00 **Gadget show**

### 14-20 Volume Replacement Oncoplastic Surgery Algorithms

- *My approach - Edinburgh / Nottingham / Atlanta*
- *Chest wall perforator flaps - The learning curve*

### 15-00 Conserving the breast for medial cancers

15-30 *Tea*

### 16-00 **Gadget show**

### 16-20 Submitted papers

### 17-30 **Sponsored Parallel Workshops –**

# Tuesday 1<sup>st</sup> October

## 08:00 Parallel Workshops –

- *Neo-adjuvant therapy / Therapeutic Mammoplasty / Fat grafting*

## 9:00 Gadget show

## Breast reconstruction

## 9:20 Submitted papers

10:30 *Coffee*

## 11:00 Long-term Outcomes in Breast Reconstruction

- *Pre-pectoral v sub-pectoral reconstruction after 5 years*
- *Long-term outcome of DIEP flap reconstruction*
- *And after radiotherapy...?*

## 12:00 Sponsored Parallel Workshops –

13:00 *Lunch*

## 14:00 Gadget show

## 14:20 The ALCL Debate and Other Long-term Problems with Implants

- *The latest instalment in the story*
- *Is it really a clinical problem?*

15:30 *Tea*

## 16:00 Reconstruction Options

- *Choosing the right patient for the right reconstruction*
- *Understanding modern autologous options*
- *Breast reconstruction revision*
- *“What gives value for money” - implant vs autologous*

## Food for thought

17:00

- *The future of surgical education*
- *How to communicate when the outcome is bad*
- *Surgical ‘metastases’ - Practicing away from the ‘primary’ centre*
- *“A life outside of work’ - what do I do with mine...*

# Wednesday 2<sup>nd</sup> October

## 08:30 Parallel Workshops –

- *Pre-pectoral Reconstruction / Getting symmetrisation right / Free flaps*

## Implant Reconstruction

### 09:30 Pre-pectoral Implant Reconstruction

- *ADM wrapping, upper pole, lower pole – which is best?*
- *Do we need ADM?*
- *Reducing implant visibility – the modifying factors*
- *Implant design*
- *Case discussions*

11:00 *Coffee / Brunch*

### 11:30 The Failed Implant Based Breast Reconstruction

- *Avoiding implant failure*
- *Managing implant failure*
- *Case discussions*

13:00 *Close*
