

Monday 30<sup>th</sup> September

**Breast-conserving surgery**

8.30 **Welcome**

8.45 **BCS v Mastectomy and Reconstruction – Time to Challenge Traditional Beliefs**

- *Local control – Are they the same?*
- *Survival – Is conservation better?*
- *Short term / long term aesthetic outcome*
- *Should we still offer the choice?*

*De Lorenzi  
Christiansen  
Macmillan  
Dixon*

9.45 **Indications for BCS in Invasive Disease – The Changing Landscape**

- *Neo-adjuvant therapy*
- *Multicentric cancer*
- *How should oncoplastic surgery affect your practice?*

*Macmillan  
Dixon  
Losken*

*Discussion*

10.30 *Coffee*

11.00 **Gadget show**

11.20 **DCIS - Does Oncoplastic Surgery Change our Options?**

- *Modern thoughts on the management of DCIS*
- *Results from case series – Milan  
– Nottingham*

*Dixon  
De Lorenzi  
Macmillan / Oni*

*Discussion*

12.15 **Volume Displacement Oncoplastic Surgery Algorithms**

- *My approach –  
Milan v Atlanta v Nottingham v Edinburgh*
- *The TEAM study*

*De Lorenzi / Losken / McCulley / Dixon  
Potter*

13.00 *Lunch*

14.00 **Gadget show**

14.15 – 14.50 **Submitted papers**

15.00 **Parallel Workshops**

- *Pre-pectoral reconstruction (Braxton)*
- *PFM (Tilooop / ADM)*
- *Fat grafting (Sponsored by HC21)*

*TBC  
Paepke / Drew  
Younis / TBC*

16:00

Tea

16:30 **Gadget show**

16:45 **Volume Replacement Oncoplastic Surgery**

- *My approach - Edinburgh v Nottingham v Atlanta*
- *Getting started with chest wall perforator flaps*
- *Chest wall perforator flaps - The learning curve*

Dixon / Macmillan / Losken  
McCulley  
Murphy

17:45 **Case Discussions**

De Lorenzi / Losken / McCulley / Dixon / Murphy / Harvey / Macmillan

19:30 **ORBS 2019 - Conference Reception**

## Tuesday 1<sup>st</sup> October

### Breast reconstruction

8:30 **Radiotherapy is not a Contraindication to Immediate Breast Reconstruction**

#### *Implant reconstruction*

- *Planning reconstruction in the face of radiotherapy*
- *Pre-pectoral reconstruction and radiotherapy*
- *Managing the post-radiotherapy implant reconstruction*

De Vita  
Gabriel  
Schefflan

#### *Autologous reconstruction*

- *Balance of arguments v delayed reconstruction*
- *Flap / technique selection*
- *Pre-operative radiotherapy*

McCulley  
Ramakrishnan  
TBC

#### *Case discussions*

10:30

Coffee

11:00 - 11:50 **Submitted papers**

12:00 **Parallel Workshops**

- *Endomag (Magseed / Sentimag)*
- *Motiva (Implant design)*

Dietz / TBC  
TBC

13:00

Lunch

14-00 **Gadget show (Implant Companies) – Rationale behind latest implant designs**

14-30 **The ALCL Debate**

- *The latest instalment in the story* Clemens
- *Should the use of textured implants stop?* De Vita / Dixon v Clemens / Scheflan

15-30 Tea

16-00 **Reconstruction Options**

- *Choosing the right patient for the right reconstruction* Rancati
- *Understanding what free flaps options are available* Haywood
- *Pre-pectoral reconstruction in challenging patients* Gabriel
- *Lessons to learn from the iBRA studies* Potter
- *Long term outcomes of implants (FDA post-market studies)* Clemens

*Discussion*

17-30 **Food for thought**

- *What is the role of robotic reconstruction?*
  - *Implant* Sarfati
  - *Autologous* Clemens
- *Closed incision negative pressure therapy* Gabriel
- *It's all pre-pectoral now - ethics of adopting new techniques* Rancati

## Wednesday 2<sup>nd</sup> October

8-15 **Parallel Workshops**

- *How to create the pre-pectoral pocket - Wrapping it up or pegging it down*  
De Vita / Scheflan / Macmillan / Safarti / Murphy / TBC
- *From LD to Free flaps - Offering the best flap option*  
McCulley / Ramakrishnan / Clemens / Haywood

### Implant Reconstruction

9-30 **Pre-pectoral Implant Reconstruction**

- *Have we abandoned sub-pectoral pockets?* Panel
- *ADM - what does it achieve?* Gabriel
- *Can we do without an ADM or mesh?* Rancati
- *Does it matter what ADM/Mesh you use?* De Vita
- *Reducing implant visibility - what are the modifying factors?* Scheflan / Rancati
- *Oncologic considerations in pre-pectoral reconstruction* Clemens

11:00

Coffee / Brunch

11:30 Outcomes of Pre-pectoral Implant Reconstruction

- >1000 ADM reconstructions: Pre-pectoral v Subpectoral
- 1450 cases of pre-pectoral implant reconstruction with Braxon

Murphy  
Salgarello

12:00 Submitted Papers

12:30 Revision strategies for failing implant reconstructions

- Avoiding complications
- Conversion to pre-pec
- Fat grafting
- Maintaining symmetry
- Polyurethane implants in revision surgery
- Conversion to autologous

Rancati / Harvey  
Gabriel  
Dixon  
Schefflan  
Harvey  
Ramakrishnan

13:45 Implant Reconstruction Case Discussions

Panel

14:30 Close

Orbs  
2019

The logo features the word "Orbs" in a white, rounded, sans-serif font, with the "O" being significantly larger than the other letters. Below "Orbs" is the year "2019" in a similar white font. The text is centered within a large, semi-transparent orange circle that has a subtle gradient and a soft shadow beneath it. The background of the entire page is white, with a large, faint, light-orange watermark of the word "Orbs" oriented diagonally from the top right towards the bottom left.
