

Monday 30th September

8-15 **Welcome**

Breast-conserving surgery

8-20 **Chair: McCulley / Elder**

BCS v Mastectomy and Reconstruction – Time to Challenge Traditional Beliefs

- *Local control – Are they the same?* De Lorenzi
- *Survival – Is conservation better?* Christiansen
- *Therapeutic mammoplasty as an alternative to mastectomy* Potter
- *Short term / long term aesthetic outcome* Macmillan
- *Should we still offer the choice?* Dixon

9-10 **Indications for BCS in Invasive Disease – The Changing Landscape**

- *Neo-adjuvant therapy* Macmillan
- *Multicentric cancer* Dixon
- *Real life numbers from a busy Oncoplastic Unit* Whisker
- *How should oncoplastic surgery affect your practice?* Losken

Discussion

10-15 **Gadget show**

- *Endomag*
- *Raise*
- *Smith & Nephew*

10-30 *Coffee*

11-00 **Chair: Macmillan / Christiensen**

DCIS - Does Oncoplastic Surgery Change our Options?

- *Results from case series – Milan* De Lorenzi
- *- Nottingham* Oni
- *- Paris* van la Parra
- *- Winchester* Rainsbury
- *Modern thoughts on the management of DCIS* Dixon

11-50 **Volume Displacement Oncoplastic Surgery Algorithms**

- *My approach –*
- *Milan v Atlanta v Nottingham v Edinburgh* De Lorenzi / Losken / McCulley / Dixon
- *The TEAM study* Potter

Discussion

13:00

Lunch

14:00 Chair: Dixon / Losken

Gadget show

- MIS Healthcare
- Genomic Health
- Eurosurgeal

14:15 - 14:50 Submitted papers

- Breast conserving-surgery combining supine position MRI-guided tumour marking with chest wall perforator flap reconstruction
Fujimoto
- Conversion from Mastectomy to BCS After NACT: Experiences from a Breast Oncoplastic Unit in India
Koppiker
- Strategy for volume replacement techniques for medial quadrants
Zaha
- Breast conservation therapy should be offered to patients with prior breast augmentation
Lesniak

15:00

Parallel Workshops

Pre-pectoral Surgical Techniques – Tips and Tricks

(Sponsored by PFM)

Video demonstrations

- TiLOOP Bra Pocket – Stefan Paepke
- Anterior Coverage – Phil Drew
- Dual Material Technique – Kristjan Asgeirsson
- Discussion
 - Synthetic Mesh: Why Not?
 - Is ADM, Synthetic or Both Best?

New Techniques for the Modern Oncoplastic Surgeon

(Sponsored by Endomag)

- Lesion Localisation, Targeted Axillary Dissection, and Delayed Sentinel Node Biopsy
Jill Dietz
- Delayed SNB
Andreas Karakatsanis
- Q&A

16:00

Tea

16:30 Chair: Rainsbury / Asgeirsson

Gadget show

- HC21
- IGEA
- IDEAL

16:45 Volume Replacement Oncoplastic Surgery

- My approach – Edinburgh v Nottingham v Atlanta
Dixon / Macmillan / Losken
- Getting started with chest wall perforator flaps
McCulley
- Chest wall perforator flaps – The learning curve
Murphy

17-40 BCS Case Discussions De Lorenzi / Losken / McCulley / Dixon / Murphy / Harvey / Macmillan

- After neoadjuvant
- Upper inner quadrant cancers
- Cancer after breast augmentation
- For cancers involving the nipple
- Cancers in the small breast
- Fixing the bad cosmetic outcome

19-30 *ORBS 2019 - Conference Reception*

Tuesday 1st October

Breast reconstruction

8-30 Chair: Losken / Sarfati

Radiotherapy is not a Contraindication to Immediate Breast Reconstruction

Implant reconstruction

- | | |
|---|----------|
| • Planning reconstruction in the face of radiotherapy | De Vita |
| • Pre-pectoral reconstruction and radiotherapy | Gabriel |
| • Managing the post-radiotherapy implant reconstruction | Scheflan |
| • Adjuvant radiotherapy and reconstruction | Cleater |

Autologous reconstruction

- | | |
|---|--------------|
| • Balance of arguments v delayed reconstruction | McCulley |
| • Flap / technique selection | Ramakrishnan |
| • Pre-operative radiotherapy | Cleater |

09.50 Breast Reconstruction and Radiotherapy Case discussions

Panel

10-30 Coffee

11-00 - 11-50 Chair: Scheflan / De Vita

Reconstruction Options

- | | |
|---|---------|
| • Choosing the right patient for the right reconstruction | Rancati |
| • Understanding what free flaps options are available | Haywood |
| • Pre-pectoral reconstruction in challenging patients | Gabriel |
| • Lessons to learn from the iBRA studies | Potter |

Discussion

12:00

Parallel Workshops

**Pre-pectoral reconstruction
Braxton: Leading with evidence**

(Sponsored by Raise Healthcare)

- *The importance of the posterior in full coverage wrapping - Franco Bassetto*
- *UK audit on PPBR with 1000 Braxton - Rishi Parmeshwar*
- *Radiotherapy - Is it a contraindication in PPBR? - Polly King*
- *Q&A*

**Let's talk about science & innovation
- Explore the future of breast aesthetics and reconstruction**

(Sponsored by Motiva)

- *Implant shell and surface design*
- *Round v anatomical implants in breast reconstruction*
- *Discussion*

Omid Veisoh, Tracy Ann Perry, Michael Scheffan

Fat Grafting

(Sponsored by HC21 / Allergan)

- *Clinical outcome and health economics of fat grafting - Allen Gabriel*
- *Personal Experiences / Case Studies - Ibby Younis*
- *Q & A*

13:00

Lunch

14:00 *Chair: McCulley / Rancati*

Gadget show (Implant Companies) – Rationale behind latest implant designs

- *Mentor*
- *Sebbin*
- *Motiva*
- *Nagor*

14:25 **The ALCL Debate**

- *The latest instalment in the story*
- *Should the use of textured implants stop?*

Discussion

Clemens

De Vita / Dixon v Clemens / Scheffan

15:30

Tea

16:00 - 16:25 *Chair: Dixon / Haywood*

Submitted papers

- *Socioeconomic status influences immediate breast reconstruction rates, patient information and involvement in surgical decision-making*
- *Staging CT scan before Delayed breast reconstruction: Does it change the management?*

Frisell

Iqbal

- *Does rapid access to BRCA testing change surgical decision-making in newly diagnosed breast cancer patients?*

Ain

16-30 Food for thought

- *What is the role of robotic reconstruction?*
 - *Implant*
 - *Autologous*
- *Closed incision negative pressure therapy*
- *The role of implant registries?*
- *Long term outcomes of implants (FDA post-market studies)*
- *It's all pre-pectoral now - ethics of adopting new techniques*

Sarfati
Clemens
Gabriel
Elder
Clemens
Rancati

Wednesday 2nd October

Implant Reconstruction

8-20 Chair: Murphy / Macmillan

Pre-pectoral Implant Reconstruction

- *Multicentre evaluation of hydrodissection for nipple-sparing mastectomy*
Asgeirsson
- *Oncologic considerations in pre-pectoral reconstruction*
Clemens
- *ADM - what does it achieve?*
Gabriel
- *Can we do without an ADM or mesh?*
Rancati
- *Does it matter what ADM/Mesh you use?*
De Vita
- *Reducing implant visibility - what are the modifying factors?*
Schefflan
Rancati
- *Have we abandoned sub-pectoral pockets?*
Panel

9-50 What's new in the products we use?

- *Modern thoughts on implant surfacing and gel properties*
Veiseh
- *Pre-pectoral breast reconstruction: a matter of biology*
Parodi

10-10 Submitted Papers

- *Salvage of the previously un-salvageable peri-prosthetic breast infection after breast reconstruction*
Meybodi
- *Patient satisfaction and outcomes following immediate implant-based breast reconstruction - a comparison of techniques*
Powell-Chandler
- *The use of a hydrocolloid dressing for nipple positioning after endoscopic nipple-sparing mastectomy*
Sakamoto

10-45

Coffee / Brunch

11:30 *Chair: De Vita / Clemens*

Outcomes of Pre-pectoral Implant Reconstruction

- *>1000 ADM reconstructions: Pre-pectoral v Subpectoral* *Murphy*
- *1450 cases of pre-pectoral implant reconstruction with Braxon* *Salgarello*
- *Negative Pressure Wound Therapy significantly reduces rates of wound breakdown and implant loss in pre-pectoral breast reconstruction* *Murphy*

Discussion

12:10 **Revision strategies for failing implant reconstructions**

- *Fat grafting* *Dixon*
- *Maintaining symmetry* *Schefflan*
- *Avoiding complications* *Rancati / Harvey*
- *Conversion to pre-pec* *Gabriel*
- *Polyurethane implants in revision surgery* *Harvey*
- *Conversion to autologous* *Ramakrishnan*

13:20 **Implant Reconstruction Case Discussions**

- *In BRCA mutation carriers*
- *In very thin women / athletes*
- *In those with a high BMI*
- *After breast augmentation*
- *After radiotherapy*
- *Symmetrisation*

Panel

14:00 **Close**
